Amplitude damping
Depolarising
Bit-flip
ibm_marrakesh
Noise rate r
two-qubit gate error (median and IQR)
one-qubit gate error (median)
QAOA depth p
(a)
Approximation ratio
midpoints, bit-flip and depolarising
grey band: decohered floor, simulated r = 0.5,
unital channels, mean ± s.d.
midpoint, amplitude damping
QAOA depth p
(b)
